

# ENERGIZING SOLUTIONS

Transformer Rental

**NORTHBRIDGE**  
Transformers

Northbridge Transformers specialise in the hire of transformers, switchgear and temporary packaged substations on a global basis.

The rental fleet covers in excess of 250MVA of low and medium voltage transformers ranging from 230V to 36kV. The majority of transformers are containerised enabling rapid deployment throughout the world. In addition, Northbridge Transformers has the flexibility to adapt transformers and switchgear according to specific customer requirements.

Northbridge Transformers has rental fleet located in Europe, Middle East and Asia with each Northbridge operation able to offer complete technical support including installation and commissioning.

## Services

To complement the transformer rental activity, Northbridge Transformers are able to offer a wide range of services:

- › Layout drawings.
- › Delivery & Logistic assistance.
- › 24-hour service support.
- › Installation & Operation engineers.
- › Commissioning.

## Transformers

- › Global fleet of rental transformers in excess of 250MVA: Belgium, UK, Dubai and Singapore.
- › Easily deployed for worldwide project requirements.
- › Transformers ranging from 630kVA to 20MVA
- › Voltages ranging from 230V to 36kV, 50Hz and 60Hz, with multi-tap options.
- › Oil filled transformers (IEC60076) with multiple vector options.
- › 400V - 690V and special voltages
- › Suitable for step-up and step-down applications.
- › Supplied in ISO containers fully bunded with save-all bases, to ensure no spillage.
- › Suitable for International Power Projects:
  - 6.3MVA 400V/11kV & 400V/36kV 20' containerised transformers.
  - Complete with over current and short circuit protection on the MV breaker plus earth fault protection (IEC60255).
  - Includes MV and LV switchgear (IEC62271).
  - 2 x outgoing MV terminals: 630A.
  - 6 x 2,500A isolators.
- › A complete list of transformer capacities and voltages are available upon request.

## Mobile Substations

- › Medium and Low voltage, up to 6.3MVA / unit
- › Voltages up to 36kV
- › Provided with switch and security devices
- › Transformer containers can be connected to one another
- › Available capacity of 250MVA
- › Medium and Low voltage containers up to 36kV for electric supply substations of an existing plant in case of planned maintenance or emergency requirements.

## Group Companies

Northbridge Industrial Services plc hires and sells specialist industrial equipment around the world.

With offices or agents in the UK, USA, United Arab Emirates, Belgium, Germany, Australia, Singapore, Brazil, Korea and Azerbaijan, Northbridge has a global customer base. This includes utility companies, the oil and gas sector, shipping, construction and the public sector. The product range includes loadbanks, transformers, generators, compressors and oil tools.

Northbridge was admitted to AIM in 2006 since when it has recorded increased earnings and dividends each year based on providing a high level of service, responsiveness and flexibility to customers. It has grown by acquisition of companies in the UK, Dubai, Azerbaijan and Australia and through investing further in those acquired companies to make them more successful. Northbridge continues to seek suitable businesses for acquisition across the world.
